# KNOWLEDGE MIGHT LOOK LIKE A TRIANGLE, BUT WHAT ABOUT THE UNIVERSITIES?

## Some reflections :

- Universities can barely draw a clear line between their missions.
- Most of the teaching staff perform research and even transfer activities. Can we evaluate them using one single dimension?
- What about rankings? 😊
- Can we really talk about synergies of funding programmes if there is no permeability between both pillars?
- Bringing the dimensions together in T&L is an aim or a need?
